LOGISTICS INSPECTIONS

LOGISTICS VISITOR MANAGEMENT SYSTEM

TEKWave's Logistics Inspections system is an advanced truck processing platform that optimizes entry and exit points for distributions centers, warehouses, etc. Our intelligent software will allow security officers to admit and verify trucks and trailers to manage transportation, speed up touch times, and streamline inspections.

Truck Processing

Admit and verify trucks entering and departing from your site

•Analyze trend reports
•Schedule trucks
•Validate all inspections criteria

Enhance Compliance

Enhance security with driver watch list and real time records

•Confirm cargo information
•Verify seal integrity
•Flags for late trucks

Reduce Touch Time

Reduce touch time with technology assisted processes

•Barcode scanning
•License plate recognition (optional)
•Scheduler integration (optional)
